RYRIE BROS. SILVER POLISH

To meet a large and growing demand for a reliable Silver Polish we have prepared for our trade the compound, a jar of which is illustrated here. This we can recommend to our patrons as a most excellent preparation. It is composed of harmless vegetable ingredients, and whilst imparting a fine polish to silver is absolutely non-injurious in its action. If forwarded with other goods (over one dollar in amount) we make no delivery charge, but when ordered alone we charge 10c. additional for shipping box and postage.

No. 15595, Price per Jar, 25c.

No. 14246. Dutch Tea Set, heavy sterling silver, consisting of Tea Pot, Cream Jug, Sugar Bowl and Tongs in handsome case, complete, \$85.00.

INTRODUCTORY

YEAR by year we have grown to a better understanding of our customers' wishes, and with each succeeding season have improved our facilities for more promptly and satisfactorily meeting them.

That we have been successful is best determined by the great number of unsolicited testimonials of satisfaction sent to us by our patrons.

This, our seventh annual, catalogue we place in your hands with the assurance that we are situated even better than ever before to fill your orders to your perfect satisfaction.

Our Mail Order Department is equipped with every improved method which experience and expert knowledge can suggest. This, and the largest and most complete stock of its kind in Canada, together with our personal interest in every order entrusted to our care, is sufficient assurance that your business with us will be as pleasant and satisfactory as honorable treatment and interested care can make it.

Our customers have testified in no uncertain terms to the fact that our Mail Order Department has been to them, not only a means of a direct cash saving, but a convenience of inestimable value as well.

We respectfully solicit a continuance of your favors.

INSTRUCTIONS

How to Order. Please do not cut this catalogue. Simply state the catalogue number of the article wanted. Give full name, stating whether Mr., Mrs. or Miss, (with Mrs. always use husband's initials) and post office. Be accurate and write distinctly and we can assure you a prompt and satisfactory service.

Terms. The prices quoted are net cash, and money must accompany the order, unless you already have a satisfactory monthly account with us.

Agents. We have no agents. All prices quoted are absolutely and positively net, no discounts being allowed even to those in kindred lines of trade.

Remittances. Remittances may be sent by express, post office order, postal note, bank draft or cash. If in cash, however, we cannot assume responsibility unless sent by registered mail.

Delivery. We prepay all charges for delivery upon orders of one dollar and upwards. Upon orders of less than one dollar, postage must be added to the prices quoted. If articles are to be mailed to foreign countries add 25c. for extra postage charges. If charges for delivery are ever demanded by the transportation companies we will consider it a favor if our patrons will at once advise us of the fact in order that we may reimburse them and make a claim for the amount unjustly collected.

Refunds. We cheerfully refund money upon the return of goods should they not meet with approval; when manufactured to special order or engraved with initials, however, we do not undertake to make such refund.

How to Send the Finger Size of a Ring. Full instructions for giving the proper finger size when ordering rings will be found upon page 9 of this catalogue.

Engraving. We do all ordinary engraving of initials free; also monograms on watches, charging only for inscriptions, special work and monograms other than on watches. Where extra lettering is required, a charge of 3 cents per letter must be added. During the Christmas rush we endeavor to fill all engraving orders promptly, and advise the placing of orders early, as *between the 15th and 25th December we cannot undertake to do any engraving.*

RYRIE BROS.

N.B.—By ordering your Christmas gifts early in December you avoid all risk of disappointment, for it sometimes happens that we are entirely sold out of certain lines and are unable to renew them until after the Christmas trade.

Old Jewelry

SHOULD you have in your possession old jewelry of gold or silver, ask us for an estimate of cost for restoring it to original form or remodelling it into jewelry of new design. We have the best facilities for manufacturing and repairing jewelry of all kinds. We are particularly well equipped for remounting or fashioning into appropriate ornaments keepsakes such as "A Nugget of Gold," "A Lock of Hair," "The Claw of an Animal," etc. Write for designs and prices. These we furnish free of cost.

Watch Repairing

IF your watch does not run satisfactorily send it to us. You may entrust it to our care with the perfect assurance that the highest of watchmaking skill will be used in correcting its faults. Should you wish to forward your watch to us, we will be pleased to send, free of cost, a wooden box in which it can be sent by mail with perfect safety. Allow ten days for repairing and regulating a watch. We prepay all charges for the return of watches repaired by us.

Jewelry Repairs

WE repair in the best manner possible all kinds of jewelry. Whether the work required be trifling or extensive, it will have our earnest attention. Our charges for the repairing of jewelry or silverware are very moderate. Articles sent to us for repairs may be forwarded with perfect safety by registered mail.

Old Gold and Silver

IF you have any old gold or silver in either jewelry or bric-a-brac, we will be glad to purchase it for cash, or to allow for it in exchange for new goods. In sending us old gold or silver write full name and address on the wrapper and advise us by mail that you have sent it. We will notify you at once as to its value. Should our allowance not be satisfactory, we will return the goods in the same condition as received. As plated ware has no intrinsic value, we do not purchase it.

Unquestionably the best mounting for fine rings is 18k. gold—best because of its durability, its color, and its high quality. All "Ryrie" Diamond Rings—types of the highest quality in precious stones—are so mounted. Any Diamond Ring purchased from us may be identified by "Ryrie Bros. 18k." plainly stamped on the inside. In always using 18k. gold we are a step in advance of most manufacturers, nearly all of whom use 14k. gold.

WEDDING RINGS.

We make all our Wedding Rings of Solid 18k. Gold. Two styles are used, the American and English. The latter style is thicker and narrower than the former, though of same weight. Probably from the fact that it allows room for more rings on the finger, it is at present most used. Every Wedding Ring sold by us is stamped inside "Ryrie Bros., 18k."

FINGER SIZE.

To get the correct size, place any ring that fits over the above circles, and send us the number of the one that corresponds.

The engraving of Signet Rings varies in cost according to the extent of the work involved. A general idea of the cost may be drawn from the prices given above.

The cost of engraving Bloodstones is approximately 50 per cent. more than engraving on gold.

To make this plain we quote an example: Engraving a simple crest on gold, \$3.50. Engraving same on Bloodstone, \$5.25.

COLLEGE AND CLUB PINS.

These illustrations are taken direct from original designs.

To give individuality to the different pins, any letters or colors in enamel may be substituted.

All pins are made of Sterling Silver, and in either brooch, button or stick pin form. The price necessarily depends upon the design and quantity ordered, but in lots of fifty they cost approximately 65c each, and singly about \$1.25 each.

When ordering, kindly state the style of pin, number required, color of enamel, and letters to be used. Special designs and estimates for medals or pins will be promptly forwarded upon request.

A member of one of the largest and most important Jewelry Houses in New York City, when inspecting our stock of Pearls recently, said : "Where do you find such Pearls, we show no such fine goods in our city." **Person** selection is the explanation. Recently one of the members of our firm visited India personally in quest of Pearls and other gems and, as a consequence, we to-day show an assortment of these gems that is unrivalled in America for either quality or value.

The Toilet Articles shown on this page are of **Genuine Ebony**. We emphasize this fact to discriminate from the "Ebonized" or ordinary wood with black finish with which many purchasers are deceived. The Brushes are all formed of bristles taken from the Russian Boar, and for general service and durability they will give the best of satisfaction,

The "Colonial" design in Sterling Silver Toiletware is more than ever popular, and our present supply is better in many respects than ever before. The Beading, which is extra heavy, is made separately and applied to each article by hand.

PRESENTATION CABINETS

THESE illustrations will give some idea of the appearance of our Cabinets or Chests for Family Silver. All are made of quarter-cut oak, beautifully polished, with burnished brass mountings, and lined throughout with satin, except No. 25, which is covered with leather and lined with silk. No. 25 is described as a "Single Deck" Cabinet; No. 20 as "Deck and Drawer" Cabinet; No. 30 as "Deck and Two-Drawer" Cabinet, and No. 35 as "Deck and Three-Drawer" Cabinet.

On pages 82, 83, 86, 87, we illustrate some of the choicest patterns of Spoons and Forks in both Sterling Silver and the finest quality of Silver Plate. With them we give lists of different assortments that we supply in Cabinets for presentations. These filled Cabinets range in price from a modest set at \$20.00 to a most complete one at \$350.00. Other pieces may be added without limit, and we will be pleased to furnish lists of all pieces made in each pattern.

SECTIONAL PLATE

UPON examining any worn-out plated spoon or fork you will find that it is at the three points indicated in this illustration that the wear takes place. The spoon and fork here shown are what are known as sectional plate, that is, they have received **Three Times** the usual thickness at such EXPOSED POINTS, thus assuring much better wear than in what is ordinarily known as Quadruple Plate.

We strongly recommend our patrons to buy the Sectional Plate, as the increased satisfaction received will fully repay them for the slight additional cost.

ILLUSTRATIONS OF THE VARIOUS PATTERNS OF THESE SPOONS AND FORKS, WITH PRICES, WILL BE FOUND ON PAGES 86 AND 87.

No. 15804. Tea Caddy, 3½ inches high, Sterling Silver\$9.00

Whether it be reality or merely imaginative there has existed for generations a feeling to the effect that Tea from a "Brown Betty" is far superior to that made in any other kind of Teapot. Its lack of style has at times banished it in favor of more pretentious Table Silver, but elaborated with Silver, as shown above, it not only retains its prized tea-making qualities, but is as well a decorative and handsome Table Piece. It is of beautiful Brown Glaze Pottery and has a White Glazed Removable Strainer or "Steeper." As soon as the tea is made the "Steeper" may be lifted out and the cover replaced. With fine Sterling Silver Mountings, the exact size of illustration, and any Monogram, we sell it for \$10.00, and the larger size for \$12.00. Three days are required for filling orders.

To Order Spectacles by Mail.—Hold this paper fourteen inches from the eyes, note the smallest test type you can read easily without glasses and answer the following questions in order: First—What number type? Second—What is your age? Third—Have you ever worn glasses? Fourth—What style of frames do you wish? If these questions are carefully answered we can suit almost every sight perfectly. This applies to Glasses for Reading and Sewing only. If they are required for long distance, further information is needed. If for any reason the Glasses when received are not suitable, the amount paid will be refunded in full upon their return. The Crystalline Lenses which we use are of the very finest quality, and cost \$1.50 per pair—add this to the price of the frame chosen. A fine Leather Case is given free with all Glasses.

Optical Repairing.—We repair every kind of Spectacle or Eye Glass Frames, supply New Parts when necessary, fit New Frames to Old Lenses, or *vice versa*, and duplicate Broken Lenses if any of the pieces are sent to us. We fill Oculists' Prescriptions accurately, and can supply anything in the Optical line.

The illustrations on this page are one-half the length and one-half the width of the articles. Please do not cut the Catalogue; the number is sufficient.

We wish to call attention to our Frick System of School Clocks, which will be found fully described on page 102.

Electric School Programme Clocks

THE "Ryrie" Programme Clock is designed for use in schools, colleges, and other institutions where announcements of fixed periods are necessary.

By the adoption of our Programme System the duties of announcing recess, recitation or other periods, usually devolving upon teachers or janitors, are performed with regularity and absolute correctness, bells being rung in any or all rooms simultaneously by the automatic action of this clock.

Aside from the renewal of the "battery" once each year, the "Ryrie" Programme Clock needs no further attention.

This System in actual operation has proven so eminently satisfactory in every instance that we unhesitatingly give to it our unqualified personal endorsement.

No. 10320. Electrical Office Clock, Antique Oak Case, 28 inches long, with 14-inch Dial, \$30.00.

Tower Clocks

OUR Clock Department is almost unlimited in its scope. From us you can purchase with every assurance of satisfaction, clocks of every description.

Here we speak particularly of Tower Clocks. For the installing of these our facilities are better than those of any other house in Canada.

Tower Clocks supplied by us are in every way superior, many of the more important parts being designed and manufactured by us to ensure correctness. Our very wide experience, together with the magnitude of our business, permits our selling with a true knowledge of their worth, Tower Clocks of the most approved quality and at very moderate prices. Write to us for particulars. We will be pleased to furnish detailed information.

Electric Time Stamp

WE can best explain the merits of our Electric Time Stamp by saying that some of the largest business houses of Toronto, supplied by us with Time Stamps, have found them thoroughly reliable and accurate.

This Stamp, which by means of flexible wire, is connected to our Electric Clock will, at each minute of the day or night, record on telegrams and orders the exact time of day, day of month and year. In insurance and railroad offices, hotels and banks where a time record of receipts and correspondence is desired, one of our Electric Time Stamps will prove invaluable.

ELECTRIC TIME STAMP.

Electric Bank and Office Clocks

THE "Ryrie" System of Electric Clocks has, wherever it has been adopted, given the greatest satisfaction.

It is designed for use in establishments where a number of clocks keeping uniform time is required.

This entire system, which may embrace any number of clocks from one to a hundred, or even more, is operated and controlled by one Master Clock, with which all tributary clocks are electrically connected.

No. 10325. Electrical Office Clock, Mahogany Case, 37 inches long, 12-inch Dial, \$38.00.

operated by an electric battery enclosed within its own case.

After installation and regulation the system is entirely automatic in its action, and all clocks embraced in it keep uniform and perfectly correct time without attention beyond renewal of the "battery" once each year.

A detailed description of our Electric Clocks in booklet form will be forwarded to any address on request.
